## RE: GRAND OPENINGS – LA/LVD – CALL-IN

Dear All,

You should by now know that the next 2 WUS orgs are grand opening within a few weeks – LV on 6 Feb and LA on 27 Feb. All of your org ED's have gotten traffic about this and getting people confirmed to go. We absolutely need a lot of people there. HOWEVER, I am coming to you as there are some key security points that need to be in regarding the call-in. What is needed is that you as the DSA make sure that these points are fully in at your org and missions.

1. There are to be NO bulk emails.
2. For LV, no emails at all – not even private emails (your ED's got telexed initially that private emails to specific people were OK – but this is not the case for the LV opening. NO EMAILS.)
3. The Call-In lists have to be a single list – i.e. not random lists that people have. The list has to be centralized and if the person's name isn't on it, the person isn't contacted. Needed is that you get the list that your org is using and you get it thoroughly qualled. I have attached a list below of names that I have taken off the lists from here:
  - a. Needed is that you add to the list any BI's, disaffected, enemy connected, psychotic, etc individuals from your area that should not be being called.
  - b. You then need to go through your org's call-in list and take off any names that are on the list. This doesn't mean that they

have to be right now dead-filed, but they are NOT being called for these events.

The above is to be done now, as soon as you get this.

4. Your org receptionists then need to be drilled to handle random calls of people calling in asking information about these events – i.e. some unknown person calls in and asks about a Grand Opening in Los Angeles. The receptionist needs to be drilled to get enough data on the person that they are confident the person is a Scientologist BEFORE giving any data out.

Please note, these openings are VERY exciting and we definitely want the public in your fields to come to this. We want the staff excited about doing the call-in – so when you do these things, do it in such a way that it doesn't dampen anything or cut anyone's reach. Most of it should be done on your lines and the general staff just goes to town calling.

It is key that these steps are done as soon as you get this comm. I am putting below the list of names that I did to come off the list and which you need to add to for your own area.

Additionally, there are some areas that need to take on more than 1 org area. These are:

ALB – Please also do PHX

DALLAS – Please also do Austin and Houston Mission

DVR – Please also do Salt Lake City

STL – Please also do Kansas City and Wichita Mission

PTL – Please also do Hawaii (you can check with the HES Day on this.)

If you need to get them to send you their call-in lists so that you can check them, then please do that.

Let me know that this is done in your area(s). We want to have stupendous openings that are completely distraction free and you can assist by putting in these measures.

ML,  
Pam
