Dear Hal,

It is with pleasure that I have received your letter of 29 October and the attachments regarding your research with "paranormal" (ha!) perceptics.

It is fascinating reading, and very valuable as far as exposing the public to even more R on this subject. In the not too distant future, of course, they will accept this sort of thing as unremarkably normal.

Interesting work you've cut out for yourself there. You certainly have my best wishes for continued success. Thanks for keeping me up to date.

Love,

RON

P.S. And well done on handling that 3rd and 4th dynamic charge. We'll have it flat one of these days.
